Using a revolutionary process developed in Europe, Advanced Finishing, USA brings you....

The DECORAL Process

The strength and durability of metal, with the appearance of wood and stone.

The weight and cost of ALUMINUM, the look of MARBLE

The advantages of POWDER COATED METALS with the realistic appearance of non-conventional material such as graphically enhanced fabrications with company logos, part numbers, or bar code information right in the powder coating.

Imagine the possibilities, YOU could be the first to introduce these products to your market.

Whether its handrails, window frames, columns, lighting fixtures, shelving, displays, or wall panels, Advanced Finishing can provide you the look you need for your metal products
